**Subject:** Workgroup meeting invitation

Dear Workgroup Member,

You are cordially invited to participate in our second workgroup meeting to discuss amendments to 7 DE Admin. Code 1140 – Low Emission Vehicle Program. The details of the meeting are as follows:

**DATE:** Friday, May 3, 2013

**TIME:** 10:00 a.m. – 12:00 p.m.

**PLACE:** Kent County Complex Building  
555 S. Bay Road – Room 220  
Dover, DE 19901

The purpose of this meeting is to further discuss the Advanced Clean Car program. The Advanced Clean Car Program represents a new approach to controlling emissions from cars and light duty trucks by combining the control of smog-causing pollutants and greenhouse gas emissions into a single coordinated package.

The Advanced Clean Car Program, when implemented will provide stricter tailpipe standards for ozone forming emissions, will reduce greenhouse gas emissions further than the federal standards, and will add a zero emission vehicle (ZEV) requirement that will spur a greater market for cleaner and more efficient cars in Delaware.

The first meeting, held on March 28, 2013, discussed the basic elements of the Advanced Clean Car Program. Materials from this workgroup meeting along with comments received from the Delaware Automobile and Truck Dealers Association (DATDA), in response to the first meeting can be found at:

<http://www.dnrec.delaware.gov/whs/awm/Info/Regs/Pages/1140LEV.aspx>

We look forward to seeing you and having your valuable input.

Ali Mirzakhilili, PE
